Classes:

High Angle Rescue....South Dakota Wheat Growers

This program will deal with different types of rescue equipment, techniques and situations. This program will consist of a classroom presentation and plenty of "hands-on" for each participant. The class will involve basic ropes and knots, so refresh your skills prior to the class. Coveralls or wild land PPE will be adequate with hand, eye, hearing and head protection – NO loose or torn clothing – lace up boots and dust masks recommended.

Fire Investigation/ Scene Preservation....Deputy State Fire Marshal Steve Harford

The course covers firefighter observations, evidence recognition, alternative overhaul, and the role of the fire service in protecting the scene.

Intro to Prairie Fires....Ryan Cumbow

This course will provide basic fire suppression training that would enable first responders to safely and effectively manage Prairie Fires.
